Welcome to GLIFWC Maps!

GLIFWC-Maps provides access to many of GLIFWC's GIS spatial databases. This website is powered by ESRI's ArcIMS software and is best viewed using Internet Explorer 4.0+ or Netscape 4.5+, your browser should also support Java scripts. If you have trouble viewing the maps, try upgrading your software using the following links:

Wisconsin DNR WebView Home
Launch DNR WebView 1.0
What is it?
Simply put, DNR "WebView" is an online GIS data viewer. The goal is to provide a tool for accessing valuable GIS data holdings at the Wisconsin DNR. Building from version 1.0 of DNR WebView, our immediate future plans are to develop an easier to use interface, improve the layer selector functionality, and improve the display of tabular attribute information.
NEW! Click on the "Web Focus" button (lower right, below the layers list) to zoom to a variety of administrative or geolocational boundaries.
